# A MULTIPLICITY of OPERATING MODES

## POWER QUALITY MODE

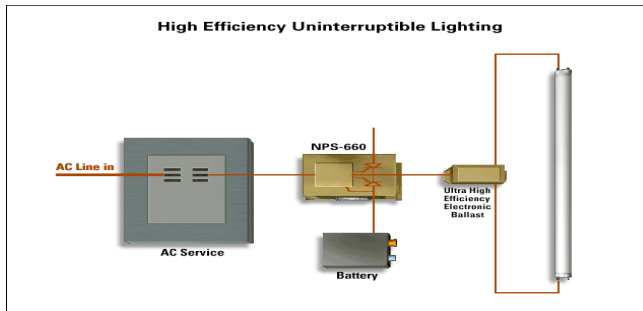

## COMMERCIAL LIGHTING

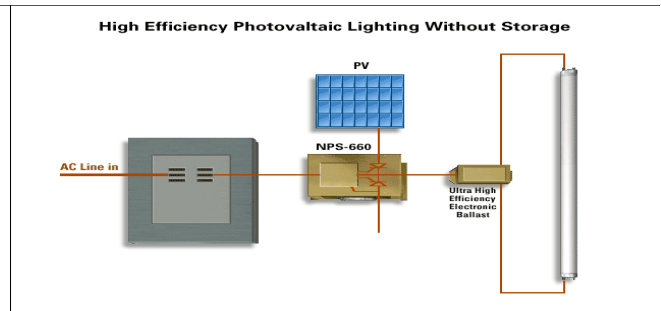

## INDUSTRIAL LIGHTING

High-efficiency, brown-out immune, ultra high voltage-regulated, THD < 5%, 99.6% power factor

## STORAGE MODE

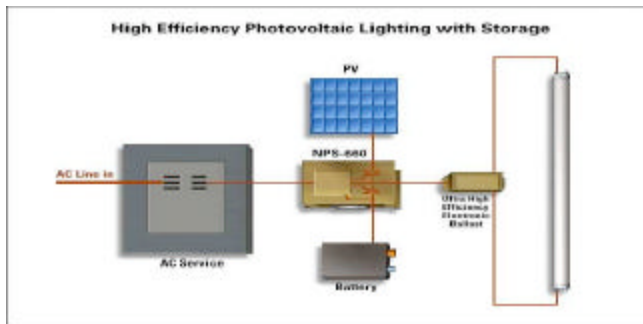

## SOLAR MODE

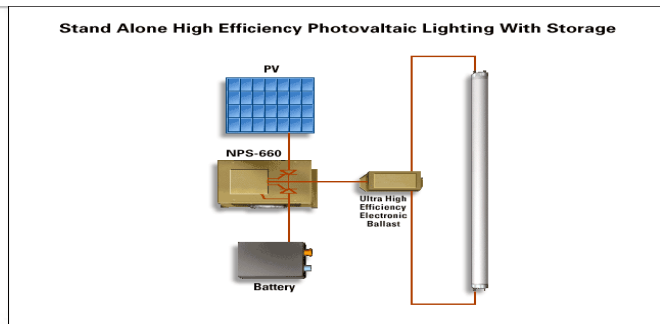

For un-interruptibility and load management options. For solar and other optional non-grid power sources.

## MULTIPLE POWER SOURCE MODE

## GRID INDEPENDENT MODE

For highest reliability.

For "stand-alone" operation, with limited grid support.
